FRESH, WHOLE MANGOES

ONE KEITT. THREE APPEARANCES.

Green, Yellow and Rainbow are commercial names for the same Keitt variety. Orchard bagging and light exposure shape their different skin appearances.

Green Keitt

The green-skinned appearance of Keitt. Bagging and light exposure help shape its skin colour.

Yellow Keitt

Usually grown in opaque red bags that limit light exposure and help produce yellow skin.

Rainbow Keitt

White bags and more light exposure than Green Keitt contribute to its red-and-green skin.

These names describe appearance, not different varieties or quality grades. Agree size, maturity and condition for the supplied lot.

OUR PANZHIHUA SOURCING PROGRAMME

COMMERCIAL MINIMUM

Good fruit begins with people.

Shine takes its name from growers' smiles. Good fruit and long-term shared success are at the heart of our brand.

FROM FRUIT TO FORMAT

PACKED FOR YOUR ORDER.

Choose packing around your sales use and target kilograms per pack. We will confirm a suitable format, dimensions, protection and final weight basis in the quotation.

Crate packing & plastic crates

Crate packing

Plastic crate detail

A practical option for bulk wholesale. These terms describe the same basic crate packing; construction can vary. Confirm kilograms per crate, protection and loading requirements.

Boxes / cartons

For boxed sales or gift presentation. Agree kilograms per box, layout, cushioning and labels.

Gift boxes

For gift sales, with divided fruit presentation. Confirm kilograms per box, fruit count and finish.

Foam boxes

Thick-walled foam containers with protected fruit. Confirm kilograms per box, size and loading needs.

PLASTIC-CRATE REFERENCE ONLY

15 KG / 18-24 FRUIT

Reference pack weight and count. Confirm the net/gross weight basis and final specification for each lot. Other formats are agreed separately.

Packing photographs show examples; the quotation defines the supplied format.
